Paper Title

Role of Cloud Computing in Healthcare Data Management

Abstract

The rapid digitization of medical records and the proliferation of Internet of Medical Things (IoMT) devices have created unprecedented challenges for traditional healthcare IT infrastructures regarding storage, processing, and data integrity. This paper presents a comprehensive evaluation of cloud computing as a transformative solution for healthcare data management, leveraging both real-world datasets and simulated environments to assess performance, scalability, security, and cost-efficiency. To simulate modern clinical requirements, the proposed system is rigorously evaluated using the MIMIC-III clinical database, which comprises over 40,000 diverse patient records, supplemented by synthetic IoT healthcare data streams representing real-time physiological monitoring.

Submission Questions Response**1. Corresponding author Email ID***Provide Email ID of corresponding author*

abhay1145.be22@chitkara.edu.in

2. Contact number with country code

Provide Whatsapp number of corresponding author with country code

+91 88945 42318

3. Author's Information

I confirm that I have listed the title of the paper and the names, email addresses and affiliations of all contributed authors in the submission system that match the order as given in the submitted paper

Agreement accepted

4. Co-author's Consent

I confirm that I have discussed about this submission with all co-authors and authors have approved the paper and agree with its submission to this conference.

Agreement accepted

5. Certificate of Originality

I confirm that neither the paper nor any parts of its content are currently under consideration or published in another conference/journal and the paper is free from plagiarism

Agreement accepted

6. Author's Consent

It is confirmed that at least one author will register in full to attend and present the paper at the Conference.

Agreement accepted

7. The use of artificial intelligence (AI)-generated text (e.g., by ChatGPT)

I confirm that no text in the paper is AI-generated.

Agreement accepted
